Dried lime

الليمون المجفف (اللومي)

Citrus aurantiifolia

Loomi, whole and sun-dried

Citrus aurantiifolia

Botanical source

Sun-dried, whole

Drying

0805.50

HS code (indicative)

1 Scope

This sheet specifies whole dried lime fruits exported by Asmagh Sudanese Exports from Port Sudan. It does not apply to products made from them.

2 Synonyms

- Loomi (لومي)
- Black lime
- Dried lemon (in some markets)
- Citrus aurantiifolia* (Christm.)
- Swingle

3 Definition

The mature, dried fruits of the lime *Citrus aurantiifolia* (Christm.) Swingle, family Rutaceae.

4 Description

Small, round to oval fruits, 4.3–6.8 cm long and 3.9–5.8 cm wide, with a thin rind fully joined to the segments. The outside is light to dark brown, depending on the drying method. Small limes are dried whole in the sun until dark and aromatic, giving a distinctive sour flavour.

5 Grade and forms

Clean	Whole, sun-dried and cleaned
-------	------------------------------

Available as Whole Powder

6 Uses

A classic sour flavouring for dishes and tea in the Gulf, Iran and Iraq.

Cooking and spice blends

Herbal tea

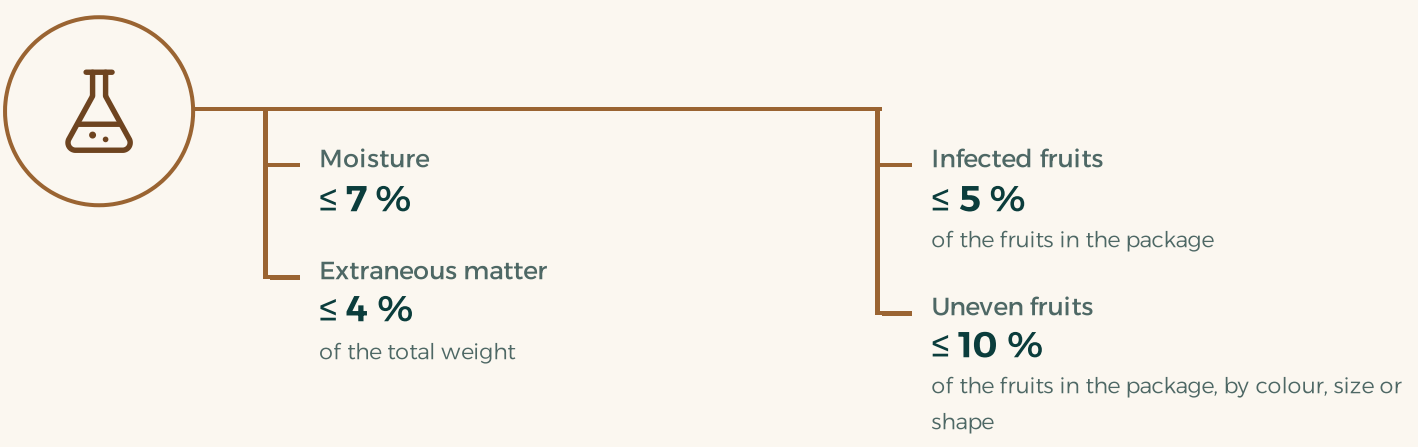

Food processing

7 Requirements

7.1 General requirements

- ✓ Even in colour, size and shape
- ✓ Natural, characteristic odour and taste; free from abnormal odour and colour
- ✓ Free from live or dead insects, their fragments and remains, and from insect infestation
- ✓ Free from lumps and mould
- ✓ Free from fertilisers and harmful chemicals
- ✓ Clean and free from extraneous matter

7.2 Technical requirements

Moisture and extraneous matter are percent by mass; infected and uneven fruits are percent by count.

7.3 Microbiological limits

Aerobic bacteria	≤ 10 ⁵ cfu/g	Yeasts and moulds	≤ 10 ⁴ cfu/g
Pathogenic bacteria	Absent		

7.4 Contaminants

Heavy metals	Within the limits of the FAO/WHO Codex General Standard for Contaminants and Toxins in Food and Feed (CXS 193-1995)
Mycotoxins	Within the same Codex standard and the limits of the importing country
Pesticide residues	Within Codex maximum residue limits and those of the importing country
Radioactivity	Within the FAO/WHO guideline levels for radionuclides in food

8 Packaging

Packed in approved packages that are clean, dry and well sealed, keep the fruits' properties, and neither affect the product nor are affected by it. Asmagh ships in bags of 25 or 50 kg.

Container load about 10 MT per 40 ft container.

9 Storage

Stored in a clean, dry place, protected from light, heat and dust.

10 Labelling

In addition to Sudanese Standard SDS 2889/2011 (labelling of packaged food), every package shows:

Product name  Dried lime fruits	Production and expiry date  Month and year	Code  Lot code	Country of origin  Sudan
Place of processing  Sudan	Net weight (kg)  25 or 50 kg	Producer, packer or distributor  Name, address and brand	Writing  Clear and permanent

11 Shelf life

No more than 18 months from the date of drying.

12 Sampling and testing

Samples are taken according to Gulf Standard GSO 1287 (sampling of packed fruit and vegetable products). Tests follow AOAC methods in a laboratory accredited by the Sudanese Standards & Metrology Organization (SSMO).

Each shipment carries an SSMO analysis and quality certificate.

From field to port

من الحقل إلى الميناء

Every lot is sampled on arrival, sun-dried, cleaned, sorted and tested before it is packed. Storage and loading are checked too, because quality can be lost after processing.

1 Our quality process

1

Sourcing

Small limes bought from growers and traders; every incoming lot is checked.

2

Sun-drying

Whole limes dried in the sun until dark and aromatic.

3

Cleaning

Dust, stalks and foreign matter removed.

4

Sorting

Infected, broken and off-colour fruits removed for an even lot.

5

Testing

Samples tested for moisture, extraneous matter and microbiology.

6

Packing

Packed in clean, sealed 25 or 50 kg bags marked with product, lot and weight.

7

Storage

Kept clean, dry and out of the light and heat until loading.

8

Loading and shipping

Containers inspected and loading supervised; shipped from Port Sudan with full documents.

2 Origin and shipping

Loomi is made by drying small limes whole in the sun until they turn dark and aromatic. The cleaned fruit travels to Port Sudan on the Red Sea for export, mainly to the Gulf, Iran and Iraq.

HS code	0805.50 (indicative; confirm with your customs broker)
Port of loading	Port Sudan (SDPZU), Red Sea
Container load	About 10 MT per 40 ft container
Ready to load	Usually 10–15 days after contract
Transit	About 2–8 weeks, by destination
Delivery terms	FOB Port Sudan, CFR or CIF
Payment terms	Irrevocable L/C at sight, TT advance, or D/P
Samples	Free; courier paid by the buyer

3 Export documents

Certificates travel with each shipment and are exchanged through the banks or directly with the buyer, so the goods clear customs at destination.

Product certificates

Certificate of origin
Sudan Chamber of Commerce; general or preferential forms.

Phytosanitary certificate
Official inspection against the importing country's pest list.

Analysis and quality certificate
Issued by the Sudanese Standards & Metrology Organization (SSMO).

Fumigation certificate
Treatment, chemical, dose and temperature used.

Inspection certificate
Optional; by an international inspection company chosen by the buyer.

Shipping documents

Export contract
Attested by the Ministry of Trade and the Chamber of Commerce.

Commercial invoice
Goods, quantity, value and terms.

Packing list
Every bag in each container, with counts and weights.

Bill of lading
Issued by the shipping line on loading.
