Clean, new-crop whole beans

Glycine max (L.) Merr.

Botanical source

New crop

Crop

1201.90

HS code (indicative)

1 Scope

This sheet specifies cleaned whole soybeans for human consumption and food processing, as exported by Asmagh Sudanese Exports from Port Sudan. Soybeans for animal feed are supplied to the buyer's specification.

2 Synonyms

Soybean

Soya bean

Soya

Glycine max (L.) Merr.

3 Definitions

Soybean seeds
The seeds of the soybean plant, *Glycine max* (L.) Merr.

Yellow soybeans
Yellow soybean seeds containing no more than 2 % seeds of other colours.

Mixed soybeans
Soybean seeds containing more than 2 % seeds of other colours.

4 Description

Whole, round to oval beans with a smooth seed coat, from the new crop of Sudan's irrigated farming schemes, where soybean growing is expanding. Every lot is machine-cleaned before packing.

5 Grades and forms

CleanNew crop, machine-cleaned

Available asWhole beansPowder

6 Uses

Soybeans are rich in protein and oil. We supply them to food and feed manufacturers.

Oil and meal

Soy foods

Animal feed

7 Requirements

7.1 General requirements

- ✓

Sound and mature
- ✓

Free from live or dead insects, their fragments and life stages
- ✓

Free from dirt and foreign organic or inorganic matter
- ✓

Free from foreign odour and taste
- ✓

Free from parasites and visible mould growth

7.2 Technical requirements

	Moisture ≤ 10 % Syrian Standard 586	Total impurities ≤ 2 % Syrian Standard 586
	Protein (N × 6.25) ≥ 34 % dry-weight basis, Syrian Standard 586	Insect-damaged seeds ≤ 1 % Syrian Standard 586
	Fat (oil) ≥ 17 % Syrian Standard 586	Broken seeds ≤ 1 % Syrian Standard 586
	Free fatty acids, as oleic acid ≤ 2 % of the extracted oil, Syrian Standard 586	Seeds of other colours ≤ 2 % yellow soybeans only, Syrian Standard 586

Percent by mass. Limits follow Syrian Standard No. 586 (1988), Soybean.

7.3 Contaminants and safety

Pesticide residues	Within Codex maximum residue limits and those of the importing country
Mycotoxins and heavy metals	Within the Codex General Standard for Contaminants and Toxins in Food and Feed (CXS 193-1995) and the limits of the importing country
Microbiology	Within the limits of the Sudanese standard for this product
Radioactivity	≤10 Bq/kg

8 Storage

Store in premises that have never held materials hazardous to health and that protect the beans from insects, rodents and moisture, in line with SDS 3891 (food premises).

9 Packaging

New, sound and strong packages that do not change the odour, taste or colour of the beans and keep them hygienic. The standard allows 1 kg retail packs and packs of 50 kg or more for industry. Asmagh ships in new 50 kg polypropylene bags.

Container load about 22 MT per 20 ft container.

10 Labelling

In addition to SDS 2889:2011 (labelling of packaged food), every bag and the shipping documents show:

Product name and type  Soybean seeds, yellow or mixed	Country of origin  Sudan	Harvest and production date  Month and year	Net weight (kg)  50 kg
Colour type  Yellow or mixed	Shelf life  24 months from production	Producer name and address  Asmagh Sudanese Exports, Khartoum	Lot number  Traceable to intake lot

11 Transport

- Transported in good conditions that protect the beans from weather, insects, rodents, contamination and damage.
- Vehicles and containers are sound and clean, and have not been used before to carry pesticides, herbicides or anything else that could affect the product.

12 Shelf life

24 months from the production date. The requirements of SDS 092:2012 (shelf life of food products) also apply.

13 Sampling and testing

Samples are drawn according to SDS 200:2014 (sampling of oilseeds). Quality is tested by the Sudanese standard methods of SSMO, and total impurities according to SDS 3870:2007.

Each shipment carries an analysis and quality certificate issued by the Sudanese Standards & Metrology Organization (SSMO).

From field to port

من الحقل إلى الميناء

Every lot is sampled on arrival, machine-cleaned, sorted and tested before it is packed. Storage and loading are checked too, because quality can be lost after processing.

1 Our quality process

1

Sourcing
Bought from trusted growers and traders in Sudan's irrigated schemes; every incoming lot is checked.

2

Cleaning
Machine-cleaned to remove dust and foreign matter.

3

Grading
Sorted to the agreed specification, including colour type.

4

Testing
Samples tested for moisture, impurities and the parameters in the buyer's specification.

5

Packing
Packed in new 50 kg polypropylene bags marked with product, lot and weight.

6

Storage
Kept dry and ventilated, off the floor and away from contamination until loading.

7

Loading
Containers inspected before stuffing; loading is supervised.

8

Shipping
Shipped from Port Sudan with the full set of export documents.

2 Origin and shipping

Soybean growing is expanding in Sudan's irrigated farming schemes. We supply cleaned beans from the new crop, shipped from Port Sudan on the Red Sea.

HS code	1201.90 (indicative; confirm with your customs broker)
Port of loading	Port Sudan (SDPZU), Red Sea
Container load	About 22 MT per 20 ft container
Ready to load	Usually 10–15 days after contract
Transit	About 2–8 weeks, by destination
Delivery terms	FOB Port Sudan, CFR or CIF
Payment terms	Irrevocable L/C at sight, TT advance, or D/P
Samples	Free; courier paid by the buyer

3 Export documents

Certificates travel with each shipment and are exchanged through the banks or directly with the buyer, so the goods clear customs at destination.

Product certificates

Certificate of origin
Sudan Chamber of Commerce; general or preferential forms.

Phytosanitary certificate
Official inspection against the importing country's pest list.

Analysis and quality certificate
Issued by the Sudanese Standards & Metrology Organization (SSMO).

Fumigation certificate
Treatment, chemical, dose and temperature used.

Inspection certificate
Optional; by an international inspection company chosen by the buyer.

Shipping documents

Export contract
Attested by the Ministry of Trade and the Chamber of Commerce.

Commercial invoice
Goods, quantity, value and terms.

Packing list
Every bag in each container, with counts and weights.

Bill of lading
Issued by the shipping line on loading.
